

United Israel Appeal of Canada Inc. Annual Report 1986

Together with the U.I.A./C.J.A. Campaigns

The Mandate of the United Israel Appeal of Canada Inc.

Part One:	
An Overview of U.I.A.	
	Inside Front Cover
Part Two:	
The U.I.A. of Canada's Role in Israel	Page 3
Part Three:	
Budget and Finance Reports	Page 11
Part Four:	
Canadian Operation and Programs	Page 14

The following pages chronicle the events and activities over the past year of the Canadian Jewish community's role in the global U.I.A. effort to support social welfare and humanitarian services in Israel. It is a record of a community for whom the centrality of Israel is no mere slogan but a fundamental impulse of Jewish life.

Our role in Immigration and Absorption, Youth Services, Education, support for the Needy and Aged, Project Renewal and Special Projects are made possible through the vision and generosity of individual contributors. In the words of former President Yitzhak Navon, "One becomes involved, one gives, one contributes to something beyond oneself"

The bedrock on which this enterprise is sustained is the unity of the Jewish people. The Jewish Agency, perhaps more than any other body, is an expression of the partnership between the diaspora and Israel. Noteworthy developments have taken place in this forum between a vigorous, confident diaspora leadership and their Israeli colleagues. It has resulted in an organization whose continuing evolution to meet present and future demands is indicative of its integrity to fulfill its role as the National Institution of the Jewish people.

This year our Annual Report also devotes a major section to the specifics of the U.I.A. of Canada's direct undertakings in Israel. It has truly been an endeavour of life enhancement. Every project purchased, every program subsidized, has been conceived for the sole purpose of serving the people: the newcomer to Israel, the needy, the underprivileged. These projects bind the individual to the community; they are forums of opportunity, of learning skills; they provide shelter and solace...and, for our contributors involved in making these facilities possible, we need go no further than the Ethics of the Fathers, who provide the answer to the question "Whom do we honour? The person who honours his fellowmen."

Message from the President

In the particular Canadian context, U.I.A. has a unique mandate from our Jewish Community. In Israel we direct a relatively high proportion of our own social welfare projects and programs and along with specific federations and foundations, we are involved with some important allocations for higher education. A major Canadian provision for key relief and vocational programs – the Joint Distribution Committee and ORT is also funded through Canadian U.I.A.

The co-ordination with local municipalities and agencies with Israel for Project Renewal functions from our Jerusalem Office.

Unlike the U.I.A. in the U.S., we also act as the major national fund-raising agency involved in critical campaign programs like the National Leadership Mission and a dramatically increased Projects program. Campaigning in “unfederated communities” is U.I.A.’s direct responsibility and intermediate communities are serviced by our Keren Hayesod emissary system. Montreal and Toronto have numerous fund-raising ties with U.I.A., from mission planning and arrangements to special Israel projects. Hineni is now a critical catalyst for the encouragement and development of national leadership.

It can be said therefore that U.I.A. in Canada really acts as the national fund-raising umbrella and a more realistic name would be the United Jewish Appeal of

Canada. In a new self assessment to begin in the fall, this reality will become part of our “study for the future.”

With our broad involvement, we can sense the mood of the Canadian community and although we can see some chronic local problems and a need for more prioritization in Israel fund-raising, the general tenor of U.I.A. and central fund-raising is upbeat.

Consider our continuous increase in transfer to Israel, the dramatic growth in U.I.A. projects with twelve new sites this year. Our attendance and involvement related to significant issues like the Ethiopian program or the Israel office review.

There is a spirit of re-involvement by our leadership as evidenced in Toronto where their U.J.A. “Organization of Past Chairmen” has become most supportive. Ever increasing attendance for Hineni and our National Leadership Mission is most encouraging.

For U.I.A. we believe the future augers well.

The intrinsic quality and substance of our world provides the foundation for our continued progress. In Israel, we have been part of a remarkable epoch. And in Canada, it can be said: by giving we have received, by building we have been rebuilt.

This has again been a very intensive period for the corporate side of U.I.A. On behalf of the organization, I express our thanks to our Board Chairman, Charles Bronfman, to our Treasurer, Orin Krivel, our Honorary Counsel, Donald Carr, Q.C. and our Corporate Secretary, Schuyler Sigel, Q.C. who were involved in the complex documentation, governance, audit and legal work for U.I.A. I would also like to thank Rosalind Karby for her outstanding service as President of the National Women’s Division of the U.I.A. and Walter D. Hess, our multi-talented senior professional, for his sincere devotion.

Allan Offman
President
United Israel Appeal of Canada Inc.

Message from the Chairman of the Board

One of the things we talk about, laugh about, and even sing about, is “tradition.” In reality, the concept of tradition is of vital importance to the continual upbuilding of Jewish communities throughout the world. This is exemplified in Hineni Too where the children of Hineni members join with their parents in learning and discussing the issues which face our Jewish people and, particularly, our brethren in Israel. The tradition of involvement with, and on behalf of, our people is aptly demonstrated each year in the United Israel Appeal Campaign throughout Canada.

We represent a great people; a people whose destiny David Ben-Gurion, whose 100th anniversary we commemorate this year, foresaw: a people of passion and compassion; a people of dignity risen from the most awful indignities; a people of integrity in a world where integrity has so badly eroded; above all, a people of excellence. And who better could represent excellence to us all than David Ben-Gurion? In the history of the 20th century, this man will be remembered as one of the most remarkable world leaders of our time.

In tribute to that great man and following in the tradition of our forebears, it is well to remember that while we have no duty to serve, no obligation to serve, we have the most wonderful privilege in the world – that of building together with other world Jewish leaders, a people that can contribute so very much to the world.

Charles Bronfman
Chairman of the Board of Directors
United Israel Appeal of Canada Inc.

The United Israel Appeal of Canada records, with sorrow, the death of Col. Jacob “Jack” Monbaz on May 24th, 1986. He was the former Associate Executive Director of the organization. His period of office with the U.I.A. was preceded by a notable career in the Israel Defense Forces and later as a senior Israeli diplomat. He served as Ambassador to Malawi and Consul General to Johannesburg, Montreal and Toronto. The U.I.A. conveys its condolences to Marilyn and family and to his two daughters and grandchildren.

Structural Co-ordination Between U.I.A. of Canada and Central Funding Organizations

The United Israel Appeal of Canada Inc.

The U.I.A. of Canada Inc. is a corporation whose legal status empowers it to manage funds destined for Israel and to ensure that its disbursement and management in Israel is in accord with the terms set by Revenue Canada. In addition, its concern is to ensure that Israel receives the optimum share of funds raised in all communities, and to accordingly maintain and develop a heightened awareness of Israel's human needs.

U.J.A.-C.J.A. Community Funds

In the major communities, these appeals organize and manage their own community drives. They are a partnership between local Federation and U.I.A. An average of approximately 40% of the proceeds are utilized for local social agencies, educational facilities and other areas germane to an organized community. U.I.A. supplies support services to these campaign efforts, such as Israel Mission co-ordinations, special speakers, educational data, etc.

The Keren Hayesod

The United Israel Appeal of Canada Inc., together with various Jewish communities in the world (other than the United States), utilize the facilities of the Keren Hayesod in Jerusalem to provide ongoing services and programs for U.I.A.-U.J.A. Campaigns.

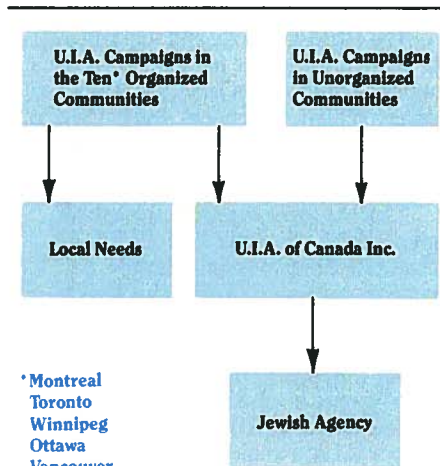

There are many countries outside the U.S.A and Canada where the Keren Hayesod office in Jerusalem takes a direct initiative in managing Campaigns. Their personnel and expertise ensures the continued viability of fundraising in these countries.

The Jewish Agency

The Agency provides the overall management and direction of overseas funds for social and human services delivery in Israel. The Jewish Agency is concerned with the following areas: immigration and absorption of immigrants, including absorption in agricultural settlements and immigrant housing; social welfare and health services for immigrants; education, including higher learning and research; youth care and training.

Two thirds of the Jewish Agency Budget is derived from U.I.A. Campaigns throughout the world.

The Jewish Agency Board of Governors

The Board of Governors is the policy making body of the Jewish Agency and has 74 members. Three Canadians have seats on this Board:

Phil Granovsky, Toronto. Among the positions he has held in the past are: Chairman of the World Board of Trustees of the Keren Hayesod, President of the United Israel Appeal of Canada Inc., President of the United Jewish Welfare Fund of Toronto, Chairman of the Canada-Israel Chamber of Commerce, Chairman of the United Jewish Appeal of Toronto. He is a member of the United Jewish Appeal of Toronto's Past Chairman's Committee. He was recently elected Chairman of the Board of Bank Hapoalim (Canada).

Joe Ain, Montreal. Past positions held have included: President of the U.I.A. of Canada Inc., National President of J.I.A.S., President of Montreal A.J.C.S. He is a Life Trustee of A.J.C.S. and a Campaign Advisor and member of the 1986 Montreal C.J.A. Cabinet.

Morton Brownstein, Montreal. Past positions held have been: President of the United Israel Appeal of Canada Inc., General Chairman of the Montreal C.J.A., Chairman of the Capital Funds Campaign for the Montreal Jewish General Hospital. He is a Campaign Advisor and a member of the 1986 C.J.A. Cabinet.

Our Role in Providing Immigrant Hostels and Absorption Centres

Absorption Centres, hostels and residential institutions for learning Hebrew are the first homes in Israel for most new immigrants. They serve an essential function in the integration process, providing:

- Housing and all related services
- Social workers
- Intensive Hebrew language study courses
- Educational, social and cultural activities
- Religious facilities
- Employment placement assistance
- Basic health care from public clinics

These services are provided to meet the needs of each immigrant based on family status, age, cultural background, religious orientation, and employment experience.

Immigrants generally reside at temporary absorption facilities for a period of 6-12 months; however, residence is often extended to 18 months to 2 years because of current severe housing and employment shortages.

The United Israel Appeal of Canada owns and maintains 3 Absorption Centres, one in Jerusalem, one in Ashkelon, one in Ashdod, and a Hostel for Single Immigrants in Jerusalem. The U.I.A. also contributes partial financial assistance and maintenance costs for 84 facilities, as follows:

Absorption Centres	41
Hostels for Academicians	9
Hostels for the Aged	2
Residential Urban Institutions for Learning Hebrew	3
Kibbutz Institutions for Learning Hebrew	2
Hostels for Singles	<u>27</u>
	84

Our Role in Providing Youth Services

The United Israel Appeal of Canada provides maintenance for needy youth in Israel within the framework of a non-profit, charitable program known as Youth Services.

The purpose of the Youth Services program is to provide facilities and assistance for the social and cultural integration of those youth who would otherwise remain outside the mainstream of Israeli society. Youth Aliya provides a framework for the residential education and general care of some 18,000 pupils (ages 12-18) of whom about 2,200 are from Eastern European countries and other countries of distress.

Maintenance includes the following services: educational activities, dormitory services, board, medical expenses, cultural and social activities. Those students funded by the U.I.A. of Canada receive funding of between 60% and 100% of the actual cost of maintenance, according to the type of institution.

Our Role in Higher Education Student Scholarships

The Institutions of Higher Education in Israel play a special role in building the quality of life in the country, in contributing to the spiritual, economic, social and scientific development of the country and in absorbing new immigrants into the society.

Student refugees who arrive in Israel are given the opportunity to continue their studies and towards this end receive financial assistance from the United Israel Appeal of Canada.

Students attend universities, teachers' training colleges, art and music academies, graduate schools, and institutions for Jewish studies. A scholarship in Israel may include tuition payments made directly to the universities, living expenses, and rental subsidies paid directly to the individuals.

Scholarship recipients are chosen according to a formula developed by Israel's Student Authority; scholarship amounts reflect the student's financial need.

The United Israel Appeal of Canada distributes scholarship assistance to needy students in the following Institutions of Higher Learning:

The Hebrew University – Jerusalem
The Technion – Haifa
The Weizmann Institute – Rehovot
Bar Ilan University – Ramat Gan
Tel Aviv University – Tel Aviv
Ben Gurion University – Beersheba
Haifa University – Haifa

Our Support for the Needy and Aged

This social welfare program funded by the United Israel Appeal of Canada covers activities and financial aid for those immigrants in need of intensive assistance above the ordinary benefits of the initial years of immigration. The program includes assistance to needy immigrants from previous years, primarily elderly persons.

The process of immigration and absorption entails a re-orientation to a new society with different customs, language, institutions and attitudes. All immigrants experience the challenge presented by the need to adapt, but because of demographic, psychological and health factors some of them are especially vulnerable to crises created by the absorption process.

A high percentage of refugees arriving in Israel are over 55 years of age. For social reasons and because many elderly people are financially unable to purchase apartments, the U.I.A. of Canada renders assistance to the elderly living in special homes constructed by the Jewish Agency.

The Essence of Renewal

The Renewal relationship is significant to the well-being of the Israeli and Canadian communities.

The Israel-Diaspora relationship is too often at arms' length, seldom a sharing of the mutual joy and pain of our communities. Renewal provides a direct and personal link between the communities, the people and places to which we are "twinning."

The Renewal relationship allows for a reciprocal engagement between Jews who otherwise would have no contact.

The Renewal communities in Israel were selected because of their severe condition and need. Their people represented the "other" Israel we read about and saw from the road. We have become real to one another. Sitting together at work and in homes, developing an intimacy and a sense of mutual identity.

The Renewal agenda and process requires local community participation, a new kind of involvement in determining the life and future of the community.

A Partnership of People

Renewal is a partnership of people, setting priorities and taking action on their lives and community. Local community steering committees are major components of this process.

Renewal exchange gives the relationship a new dimension.

Canadian communities linked to neighbourhoods are initiating a planned program of people and program exchanges. In addition to the ongoing U.I.A. missions and private groups or individuals, an exchange committee is working to produce activities for pen pals, exhibitions, newspapers, cookbooks, Bar/Bat Mitzvah, Youth Groups and volunteers.

Renewal provides a new relationship between the Jewish Agency, government, local community and ourselves.

Co-operation and Co-ordination

Never before has there been such co-operation and co-ordination between these independent components. The bureaucratic obstacles were awesome, but with patience and persistence many were overcome.

Renewal is producing tangible results.

The face of these communities is changing. Whether it is the physical or the psychological image of the community, the results are clearly visible. New public facilities and refurbished housing, a new spirit and confidence are the face of our communities. For the Canadian communities, Renewal has produced a new understanding and level of commitment to seeing Israel fulfill its promise.

New York Times

International recognition of Project Renewal was highlighted in the May 25, 1986 issue of the New York Times Magazine, which declared that Project Renewal was a "program in which diaspora communities sponsor urban renewal and education projects in sister cities (and) has had a real impact in improving the life in towns all across Israel!"

The Canadian Jewish communities are twinned with seven Renewal Neighbourhoods. This is almost 10% of all the Renewal Neighbourhoods.

Of the seven, two are phasing out of the Project (Bet Dagan and Jaffa Dalet), two neighbourhoods still have three years in the Project (Yerucham and Or Yehuda), and three neighbourhoods only recently came into the Project (Kfar Gvirol, Kfar Yona and Gan Yavne).

Project Renewal: Twinning Community to Community Financial Report as at March 31st, 1986

(All figures quoted in U.S. funds)

Involvement

In the neighbourhoods that only recently joined the Project Renewal process, a concentrated effort is being put into proper planning. The involvement of the Canadian communities (Toronto, Winnipeg, Vancouver) in the planning process and the decision making is substantial. Their contribution is highly regarded by the citizens of the neighbourhoods as well as by the professionals.

Accomplishment

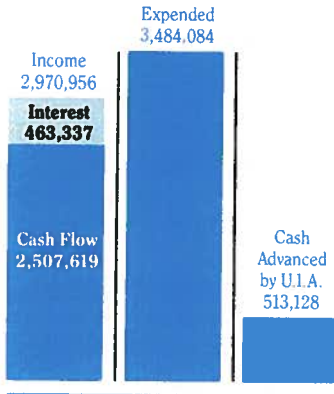

In the veteran Renewal neighbourhoods, there is a general feeling of accomplishment and pride. The development of community spirit finds many ways of expression. One of them is the creation of performance groups that are run mainly by volunteers (choirs, dancing groups, etc.). The few problems that were evident in the operation of Canadian Projects have been solved and now all Projects are operating satisfactorily, including the Sheltered Housing and the Toban Centre in Jaffa Dalet.

Attachment

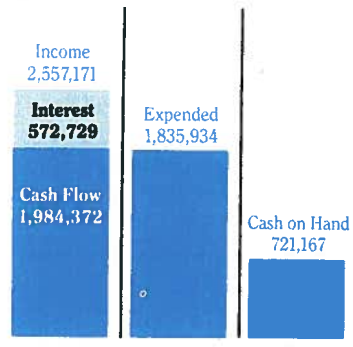

The visits of the various Missions to the Renewal Neighbourhoods usually includes some hospitality. There is a growing attachment on both sides in which the hosts and the guests treat each other as "our community."

It is evident that the warm feelings and the emotional ties are growing stronger all the time.

A Cross-section of Projects Sponsored by The United Israel Appeal of Canada Inc.

Introduction

The underlying philosophy of a U.I.A. project is its orientation on people, on their hopes, on their aspirations, on their ability to transform the dream into a reality.

The Need

The United Israel Appeal makes available to potential sponsors a wide spectrum of projects that have been designated as 'priority need' for communities all across Israel. The need may be for vocational scholarships, kindergarten renovations, a swimming pool for a development town in the Negev, or a major construction undertaking such as a sports hall.

Priority Areas

Priority need areas are the Galilee, the Arava and the seven neighbourhoods involved in Project Renewal. Many of the projects are targeted for 'confrontation' areas along Israel's borders.

Recognition

Completed projects are opened in a dedication ceremony attended by the sponsor, government and ministry officials, and all those who helped bring the project into being. The U.I.A., which takes legal title of the physical site, recognizes the contributions of Project sponsors by affixing a plaque, in perpetuity, on the structure itself, on the room where equipment will be used, or on the place of equipment donated.

"Canada House" Absorption Centres – Ashkelon, Jerusalem, Ashdod

These Absorption Centres are owned by the United Israel Appeal of Canada and all operating costs are absorbed by the U.I.A. The day to day operation is carried on by the Aliya Department of the Jewish Agency.

These facilities are intended for immigrants with an academic or free profession, and for those for whom the knowledge of Hebrew is essential to secure employment in Israel. Each family manages its own household and receives financial sustenance help if necessary. The planned period of residence is 6-8 months. Recently, the difficulties in finding permanent housing solutions led to an extension in the average period of residence to about a year.

The Ashkelon absorption centre has 120 dwelling units, the Ashdod centre 72 and the Jerusalem centre 101 dwelling units.

Assaf Harofe Hospital

This hospital is located at Tzerifin, which is approximately 10 kilometers south of Tel Aviv. The Hospital services a population of 148,000 people, and attends to approximately 400 in-patients and out-patients per day.

The facility, built by the United Israel Appeal of Canada, is an Obstetrics and Gynaecology Hospital.

The structure consists of 2 two-floor wings above ground and a full basement-shelter below ground.

Youth Institute – Nordia

This facility owned by the United Israel Appeal of Canada was constructed to provide a direct link with Jewish youth from abroad. It is located in the agricultural settlement of Nordia located 3 kilometers east of the city of Netanya.

The Institute serves as a hostel for accommodation of Jewish youth from abroad for periods not exceeding 6 months. While staying at the Institute the youngsters study Jewish subjects and acquaint themselves with the life in Israel in order to serve in the future as an additional link between overseas Jewry and Israel.

Vocational Training Centre – Upper Nazareth

This facility has been registered in the name of the United Israel Appeal of Canada and is presently under construction. Construction should be completed about September 1, 1986.

The Vocational Centre will service the City of Nazareth and the area of the Lower Galilee.

Community Centre – Metulla

Metulla is located at Israel's most northerly point, close to the border of Lebanon. The Community Centre services a population of 1,600 residents. Facilities within the Centre include:

- A 380-seat Auditorium
- A Bomb Shelter (which is used for activities)

Activities conducted within the Community Centre include:

- drama, dance, community choir, community public functions, a day centre for senior citizens and after school facilities for arts and crafts, art workshops, athletics and study groups.
- During the summer months a day camp is conducted from the Centre.

Community Centre – Kiryat Ono

The centre services a population of some 27,000 inhabitants and is utilized during daytime hours as a Day Care Centre for children of working mothers and as an Activity Centre for senior citizens. During after school hours the building is utilized as a Youth Centre with activities including folk dancing, arts and crafts, study groups, gymnastics, etc.

At present approximately 64 children are cared for in the Day Care Centre. 250 senior citizens participate in daily activities. Hundreds of youth participate in after school recreational activities.

Centre for the Elderly – Yerucham

This Centre is situated in the Project Renewal community of Yerucham, which is located 30 kilometers south of the City of Bersheba and has a population of 6,500.

The Centre provides a meeting place for some 300 senior citizens. Social activities are designed to encourage mutual reinforcement and concern for the many who are alone.

At the Sheltered Workshop, piecework contracts give them an opportunity to supplement their often meagre incomes. A hot meal is served to many of the elderly at lunch time.

Day Care Centre – Yerucham

This Day Care Centre is located in the Project Renewal community of Yerucham. The Centre services 75 children of working mothers. The children are from ages 0-3.

Library – Yerucham

This Library is located in the Project Renewal Community of Yerucham. The Library has approximately 30,000 books. Facilities within the Library include:

- An adult library
- A children's library
- A reference library
- A study room for students to do their homework in.

Swimming Pool – Yerucham

This Swimming Pool is located in the Project Renewal community of Yerucham.

Because Yerucham is located in Israel's Southern Negev Desert, where temperatures rise to close to 100°F, a swimming pool is essential to provide a recreation area for the community.

Pre-Kindergarten – Or Yehuda

This Pre-Kindergarten services 55 children ages 3-4.

Public Park – Or Yehuda

This Park is located in the Project Renewal community of Or Yehuda. The Park is 5,770 square meters in size.

Youth Centre – Jaffa Dalet

This Youth Centre is located in the Project Renewal community of Jaffa Dalet and has a population of 12,000.

- Activities within the Centre include:
- crafts for youth during the after school hours
 - folk dance groups
 - musical groups and youth orchestra
 - choir activities
 - music appreciation classes
 - indoor sports activities

Sports Club – Jaffa Dalet

This Sports Club is located within the Project Renewal community of Jaffa Dalet.

The building is used for meetings of youth groups including scouting movements.

The outdoor sports field has concrete bleachers and activities out-of-doors are multi-purpose, including basketball, volleyball and mini-soccer.

The Centre fosters positive role models through youth movement and young leadership courses, etc. which have far reaching effects on the entire community. An innovative program, soccer school, utilizes soccer to further both social and educational aims in addition to the immediate goals of encouraging physical fitness and creating winning teams.

Day Care Centre – Bet Dagan

The Day Care Centre services a total of 75 children ages 0-3, of working mothers.

Day Care Centre (Site) – Jaffa Dalet

The United Israel Appeal of Canada has taken title to this site and it is intended, depending on availability of funds, that a Day Care Centre for 50 children ages 0-3 will eventually be built there.

Centre for the Elderly – Jaffa Dalet

This Centre for the Elderly services 600 senior citizens from the neighbourhood.

- Activities in the Day Centre include:
- handicrafts
 - sewing
 - study groups
 - ceramics
 - general recreational activities for senior citizens

Easing the Burden

Pre-Fabricated Youth Centre – Jaffa Dalet

This Youth Centre is used during after school hours for community activities including:

- adult study and education
- music appreciation for youth
- youth courses
- arts and crafts for youth
- youth indoor games

Library – Jaffa Dalet

The Library has approximately 3,000 books and 250 children are registered there.

During after school hours, the Library is used as a study space within their homes.

During school hours the Library is used by women's groups for meetings and for special courses in child hygiene and child preventative medicine.

Community Centre – Bet Dagan

This Community Centre is located in the Project community of Bet Dagan, which is located some 10 kilometers south-west of Tel Aviv and has a population of 3,000. Facilities within the Centre include:

- a 288-seat auditorium and stage
- 5 administration offices
- 2 dressing rooms

Programs within the Centre include a whole range of youth and adult activities:

- handicrafts, drama and gymnastics
- discussion groups for youth
- public performances – conducted in the auditorium
- community music program and youth orchestra
- team sport activities

The Economy

Israel is undergoing a severe recession with rising unemployment and a cut back in social services offered by both the National and Municipal Governments. For this reason funds collected by the United Israel Appeal of Canada are, at this time, more important than ever. This is especially true in the area of immigrant absorption. U.I.A. Funds have made it possible for new immigrants to be readily absorbed into Israel. Without this help from abroad the absorption of the new immigrants would be impossible.

Highlights of the 1986/87 Jewish Agency Budget

The budget, as in the past several years, is balanced, with an estimated income of \$381 million and the same amount of expenditures.

Fundraising income for 1986/87 will be budgeted at less than what was budgeted for 1985/86, due to the completion of the special campaign for Ethiopian Aliyah, "Operation Moses."

Most departments will be carrying out regular operations at a level the same or slightly below that of 1985/86. The regular Immigration and Absorption expenditure is slightly higher than in 1985/86. There are two additional budget lines: one for immigration, \$15 million, and one for absorption, \$20 million. These two budget lines will provide for an emergency situation if immigrant numbers should increase suddenly and to help solve the present housing problems of Olim.

The total Youth Aliyah budget of \$52 million has been reduced by \$7 million, reflecting the completion of the "Operation Moses" Campaign and the mainstreaming of Ethiopian needs into the regular services of the department.

The 1986/87 income has been estimated optimally, and expenditures minimally, calling for a major effort by the campaign to meet the full extent of the needs.

Highlights of the 1986-87 Israel Government Budget – \$22.6 Billion

I. Regular Budget	\$16.1 billion 71.2%
II. Development Budget	\$1.5 billion 6.7%
III. Capital Accounts	\$4.1 billion 18%
IV. Debt Repayment to Bank of Israel	\$0.9 billion 4.1%

Key Budget Indicators:

A 1% increase in standard of living expected for fiscal 1986/87.

Higher unemployment and social welfare costs expected, along with continued cuts in consumer goods subsidies.

Exports expected to increase, with subsequent reduction in balance of payments deficit.

GNP

Israel's Gross National Product (total output of goods and services) was \$22.6 billion for 1985, \$5400 per capita.

Inflation

Israel's consumer price index up 185% during 1985 calendar year. The Israeli shekel fell in value by 134.8% against the U.S. dollar during 1985.

Balance of Payments

Israel's total exports of goods and services in 1985 were \$10.1 billion; total imports, \$15.5 billion, including \$1.9 billion for defence, bringing the country's current accounts deficit to \$4.4 billion.

External Debt

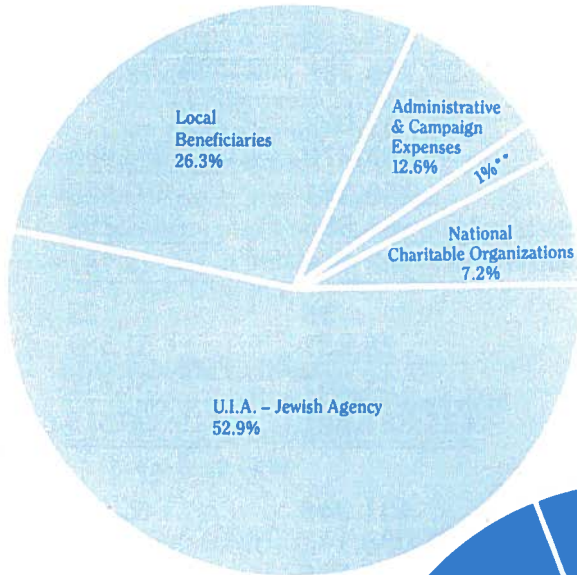

Israel's external debt, cumulative over the years, reached \$23.9 billion by the end of 1985, equivalent to \$5596 per capita. Annual servicing of this debt (repayment of principal and interest) poses a serious strain on national resources.

Israel's balance of payments deficit is covered by unilateral transfers, such as grants for foreign governments and proceeds from various Jewish appeals.

Financial Report

The following is a condensed summary of the financial position of the United Israel Appeal of Canada Inc., as at March 31, 1986 and the income and expenditures and changes in financial position for the 12 months then ended, together with comparative figures as of March 31, 1985, extracted from the audited financial statements of the organization.

The auditors of United Israel Appeal of Canada Inc. are Messrs. Richter, Usher & Vineberg.

Canadian Operation and Programs

From the Executive Vice-President, Walter D. Hess

Programatic Highlights

Remittances to the Jewish Agency

In 1985/86 historic highs in times of peace were recorded in Campaigns in our major communities. This was reflected in a 10% increase in the U.I.A.'s remittance to the Jewish Agency.

Projects

A number of significant projects in Israel were purchased by individual contributors. This form of enhanced giving lends an exciting dimension to our work and in this past year has become a prominent feature of our activities.

The following were purchased:

1. Youth Centre in Metulla
2. Sports Centre in Metulla
3. Auditorium in Kiryat Shmona
4. Auditorium at Kibbutz Malkia
5. Youth Centre at Kibbutz Yiron
6. Hostel at Kibbutz Sasa
7. Community Centre and affiliated facilities in Nes Ziona
8. Pre-Kindergarten Nursery in Kiryat Ono
9. Sports Hall in Yerucham
10. Community Centre complex in Or Yehuda
11. Youth Centre and Library in Neve David
12. Library in Acco

There are an additional fifteen projects already on the drawing boards which will be concluded with purchasers in the next six months.

Missions

Major missions to Israel from across Canada took place undeterred by outside influences. The impact which new missions under the auspices of the U.I.A. have on Campaigns cannot be overestimated. They are without any doubt our finest vehicle in promoting the cause of Israel and the U.I.A.

Hineni

The Hineni Conference has become the central forum of Canadian leadership. Its success has been such that in Europe, South America and the United States, efforts are underway to emulate the Hineni model in Canada. For the first time in the six years of its existence, the 1986 Hineni Conference, which takes place in Vancouver, can boast of more than 200 participants.

General

Relationships with Communities

The consultative services of the office of the U.I.A. were utilised to further effect in a number of communities. In addition, support services from the U.I.A. such as speakers, missions, Keren Hayesod canvassing input and campaign material were factors integral to the success of campaigns.

Lay Leadership

The quality of the lay leadership of the U.I.A. gives this organization its leading edge. The co-operation I have received from Charles Bronfman, the Chairman of the Board, and Allan Offman, the President of U.I.A., and from the Senior Officers and Executive has been the mainstay of my endeavours in carrying out my duties.

Walter Hess

Message from the President of National U.I.A. Women's Division, Rosalind Karby

1986 marks the Bat Mitzvah milestone of the National Women's Division of U.I.A. of Canada. On June 10, 1973, fourteen women, representing five communities from across Canada, met to inaugurate an organization that has become the focal point for U.I.A. Women's Division campaigns throughout the country. Their mandate stated: "This structure (U.I.A. National W.D.) will help those communities that already have campaigns to better fulfill their potential, and will initiate activities and campaigns in those communities where there are no separate Women's Divisions."

Over the ensuing 13 years, the number of separate women's division campaigns in Canada has risen from five in 1973 to eighteen in 1986. In this same period, the dollars raised by the Women's Division have risen from 4.5 million to just over 8 million – an extremely tangible indicator of the involvement and commitment of Canadian Jewish Women.

Israel Missions The Unparalleled Perspective

As the needs of Israel and of Jews everywhere have increased, so too have canvassing techniques and campaign education matured to meet the ever present challenges. Canadian U.I.A. women have perfected "face-to-face" solicitation and are sought after by other fundraising organizations as resource personnel. More than ever before, we are attending and leading more workshops, going on more missions to Israel, assuming higher levels of leadership and writing more responsible cheques to our campaigns.

While the barometer on Israel's security – military, economic and social – rises and falls with even the gentlest of pressure, the U.I.A. women's division's resolve is to stand firm in all weather. The commitment we make to U.I.A. is not a gift to be given or withheld on a whim. Our contribution fulfills the commandment of "Tsedaka" – a demand to give coupled with the guarantee of dignity for the receiver. The women of U.I.A. of Canada know that our brethren – and ultimately ourselves and our children – depend on the strength and determination to fulfill that Mitzvah. Forty thousand women are the cornerstone of this commitment. And as my term as President comes to an end, I want to thank them and the leadership of U.I.A. of Canada for the privilege of serving as the 9th Chairman of the National Women's Division.

Rosalind Karby
National President
United Israel Appeal of Canada Inc.
Women's Division

The mission program has been marked by significant developments this past year, both in conception and recruitment, and in programmatic implementation in Israel.

Joint Missions

Increasingly, missions have been national in character, or at least have been the product of joint efforts involving several communities. As a result, most of this year's missions benefited from interaction of people representing different communities and in part reflecting the totality of Canadian Jewry. These missions included the Women's Division and the Smaller Communities Mission. These joint activities culminated in one of the major missions of the year, the first combined Prime Minister's Mission of Montreal and Toronto in May – June, 1986.

The Overview

Each mission confronted the differing ideological and political views contending for prominence and power within Israeli society. Only through seeing those features which unite the people, as well as those which divide them, can Israel, in all its complexities, be understood.

Goals

The goals for the future are for more of the same: offering ever-increasing numbers of Canadian Jews the opportunity to participate in the unique and intense experience of a U.I.A. Mission to Israel.

The Second U.I.A. National Leadership Mission

An enthusiastic series of accolades by participants accompanied the conclusion of the Second National Leadership Mission to Israel, led by the President of the U.I.A., Allan Offman. The Mission, which took place from June 14-19, was a whirlwind affair culminating in a special luncheon at the Siebenberg House in Jerusalem. Ninety-five people strong, the Mission included some of Canada's major U.I.A.-U.J.A. contributors and leaders, along with members of their families. The participants, many of them experienced mission goers, proclaimed this as one of the most successful Canadian missions ever.

The Mission was greeted by a brass band upon its arrival in Israel. Information briefings were given during the 5-day tour by Prime Minister Shimon Peres, Minister of Defence Yitzhak Rabin, President Chaim Herzog and Minister Moshe Arens. Other speakers included Dr. Avraham Avi-Hai, World Chairman, Keren Hayesod, James Bartleman, Canadian Ambassador to Israel, Brigadier General Danny Rothschild, Chief Liaison Officer to the South Lebanese Army, Commander Ami, Commander of the Haifa Naval Base, Menachem Perlmutter, Head of the Jewish Agency Rural Settlement Department, Engineering Division in the Negev.

There were two themes pervading the many visits and presentation. The first was the defense problems facing Israel and how they were being met; the second was the social and economic problems with which Israel was currently coping. Visits were made to the Northern Front along the Israel-Lebanon demarcation line, the "Good Fence" and Metulla. Also included were trips to the Navy Headquarters in Haifa and a cruise on a naval vessel. A special flight took the group to the highly proclaimed air base in the Negev, Air Base Uvda.

The World of Young Leadership

While in the Negev, a tour of the Arava also took place, highlighted by a special address by Menachem Perlmutter, who described the miracle taking place in the Negev, with special focus on the Arava, the arid land strip adjacent to the Jordanian border.

Of special significance to the Canadians were two dedications which took place during the tour. The first was at Kiryat Shmona, where a 750-seat auditorium to serve the total region was dedicated. The auditorium will be called the Phil Granovsky and Family Auditorium. The auditorium will have dressing rooms, a large stage and an orchestra pit. "It will be a true cultural centre of the North. One more element that will help our lives resemble the normalcy that one finds in the centre of the country. Hopefully, with this improved quality of life, the North and Kiryat Shmona will become a viable alternative for the people who are looking for a change in their lives. For this, we thank Canadian Jewry," said the Mayor of Kiryat Shmona, Ezran Prosper.

The second took place at Nes Ziona, one of the first Yeshuv settlements, which has come alive as an important high-tech centre, particularly through the 35 high-powered companies in the Kiryat Weizmann Hi-Tech Science Park. There,

a large segment of the community attended the ground-breaking ceremony of the Jack Posluns Cultural Centre, dedicated by the Posluns Family of Toronto. "The town lacks adequate social and cultural facilities, and if we hope to attract professionals to Nes Ziona, and keep them here, we need to provide the community services that act as an enticement," said Mayor Krupsky. The 4800 sq. m. two-storey centre will be the heart of Nes Ziona, providing sorely lacking cultural and social services. Plans call for an 800-seat auditorium, a music conservatory, a hall for activities for all ages and a library.

Mission members were deeply moved by their visits to a resettlement centre for Ethiopian Jews and to Bet Dagan, Toronto's first Project Renewal neighbourhood of seven Canadian Project Renewal neighbourhoods. There, the Mission was entranced with a performance by children's groups of four Project Renewal neighbourhoods.

The final activity of the Mission was a personally conducted tour of the excavated ancient Jewish home in the Old City of Jerusalem by Mr. and Mrs. Siebenberg. Three thousand years of Jewish history on this remarkable archeological site are eloquently evidenced in the many artifacts found on the site. But, perhaps, more than anything else it afforded every member a personal, intimate look into the reaches of our history, of our forefathers, of our faith. There could not have been a dry eye when the group left.

The fully packed five days of touring and lectures ended on high note with the largest increase in gifts over the previous year for a Canadian Mission group in peace time.

In the English-speaking countries linked to, or assisted by, the Keren Hayesod, dramatic growth has taken place of late. Of the 840 young men and women actively involved as leaders in those countries, 571 are in Canada and 193 in Australia. England is on its way to building up a cadre of committed leadership. In South Africa, leadership ranks have been seriously depleted through emigration and considerable attention is being paid to rebuild its base.

Europe has an active Young Leadership where, in all countries, we have seen a rise in involvement and in fundraising. South America remains somewhat problematic, though it is hoped that with greater Keren Hayesod assistance Young Leadership will realise its undoubted potential there.

The Impact of the Morris M. Pulver Scholarship Fund on Higher Education in Israel

The Morris M. Pulver Scholarship Fund of Israel of the Bequest and Endowment Fund of the Toronto Jewish Congress is now entering its third year of operation. United Israel Appeal continues to cooperate with the Toronto Jewish Congress in this operation. It provides the necessary funds for administration of scholarships. All scholarship funds, that is, approximately \$700,000 (Canadian), are processed each year by the U.I.A. through the Jewish Agency.

During the first two years of its existence, the Pulver Scholarship Fund provided scholarships for almost 600 students each year at 26 accredited post-secondary schools in Israel. Although most of the students were Israelis, a growing number of Canadians are being encouraged and assisted in undergraduate and graduate studies at universities and selected Yeshivot in Israel.

All students must be academically accredited and be in financial need. It was the desire of the late Morris M. Pulver to provide opportunities for students to attend an institution of higher learning who might otherwise not be capable financially of so doing. It was a further wish of Mr. Pulver that all students who were helped through the fund be tracked through their lifetime to ascertain their accomplishments and their involvement in communal affairs.

Hineni

"Hineni" was an original and unusual concept. Founded by Charles Bronfman in 1981, it was designed to offer enrichment and special educational activities to selected members of the top Campaign and Jewish Community Leadership: those whose contributions were on such a level as to place them, often, in positions of representing the Jewish Community.

In August 1986, Hineni returns to Vancouver where Co-Chairmen Frances and Samuel Belzberg will preside over the biggest-ever conference. The Conference will deal with some of the most disturbing trends in Jewish Life. The theme this year, "Israel and the Jewish World - Confronting Extremism and Radicalization," is both timely and troubling. The world has been buffeted by escalating extremism and violence, with Israel and the Jewish people as particular targets.

An impressive group of academic scholars and public figures, drawn from differing ideological perspectives, will analyze the issues and probe the underlying significance of these disparate phenomena.

Among those present will be:

Rabbi Arthur Hertzberg
Prof. Dartmouth & Columbia,
Vice-Pres., World Jewish Congress
Former Pres., American Jewish
Congress

Professor Seymour Siegel
Prof., Jewish Theological Seminar

Chana Semer
Editor of Davar

Eliyahu Ben Elissar
Member of Knesset

Mendel Kaplan
World Chairman, Keren Hayesod
Board of Trustees, Treasurer -
World Jewish Congress

Professor Yosef Olmert
Professor, Tel Aviv University

Eliyahu Essas
Former Russian Refusenik

Simcha Dinitz
Member of Knesset

The Conference will also focus on the proper Jewish response: how to ensure a strong and viable Israel and a Jewish people true to itself and its traditions. We anticipate a most stimulating conference.

Finally, mention should be made that Hineni 1988 promises to be even more distinctive than the others. Israel will celebrate the 40th Anniversary of the State on May 19. Hineni hopes to participate in the official celebrations, in Jerusalem.
