

The Presner Family

Although we, like all families, have multiple giving opportunities and limited resources that require prioritization, our family is proud to give a gift to Federation every year both because we know it helps to strengthen our community and in living our values, we're also modeling them for our children.

When the opportunity for legacy giving came to us, it was really a 'no brainer' for similar reasons; it will continue to strengthen our community for years to come and ensure that our children and their children have a vibrant Ottawa Jewish community to call home. The way the Life and Legacy program is structured, it was very easy to bequest a percentage of our estate while still leaving ample bequests to our children. Our hope is that legacy giving becomes the norm for our generation to help future generations develop and sustain the communities we wish for them; as such, we encourage other young Ottawa families to take advantage of this unique opportunity to keep our future vibrant and strong.
