Survey response:

Q1: Will you ensure legitimate consultation with the mainstream Jewish community in all aspects of reacting to the antisemitism crisis?

A: Generally, if there is a need for such training, I am supportive of ensuring that groups affected by policies or initiatives are directly consulted in the development process of such policies/initiatives. As such, I would be supportive of the collaboration and consultation if specific training on antisemitism is necessary.

Q2: How will you ensure the Board respects the voices of minority groups and protects all minorities, including Jewish students?

A: I will bring my experience in open and public consultations, from my professional experience, to ensure that policies of the School Board have heard and considered the voices and opinions of all members of the community. I will work to ensure and influence other members of the Board to have open dialogues on all topics of discussion while bringing my own experiences working with a diverse group of minorities to the table.

Q3: Would you be supportive of the school board adopting the IHRA definition of antisemitism?

A: As the School Board is an extension of the mandate of the provincial Ministry of Education, I am supportive of adopting any such definitions that have been adopted or subscribed to by the Ontario government, including the IHRA definition.
