

Step 1 : Sign up for Canva (If you already have one, skip this step)
In order to use the profile frame, you would need to have a Canva account.
Sign up for an account [here](#).

Step 2: Use the Template in your account

Once you have the account, click on the template link [here](#) and click on “use this template for new design”. The design should open it for you like the screenshot below:

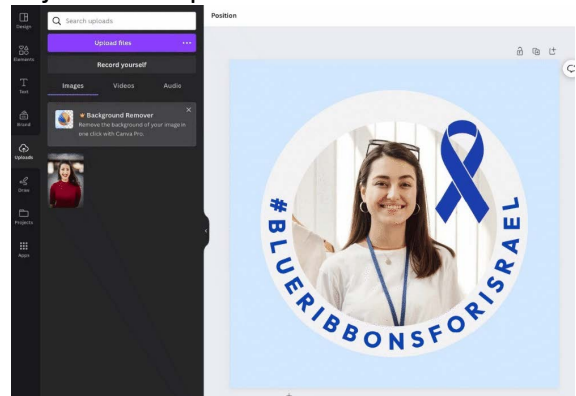

Step 3: Upload your photo
Upload your photo by using the “upload” tab on the left. Hit “Upload file” and select your photo on your computer.

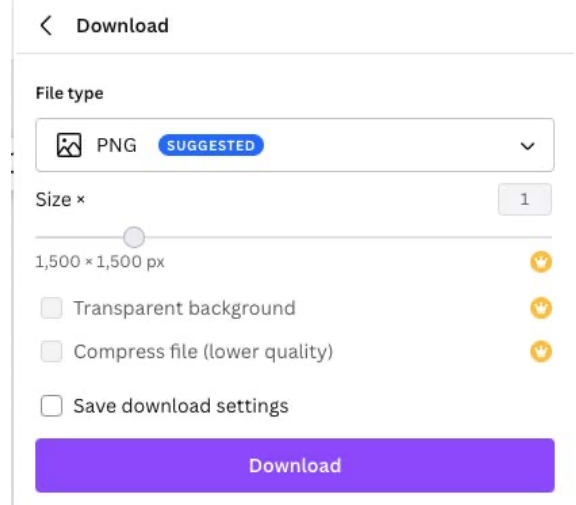

Step 4: Replace the photo and crop it correctly

Once the photo is uploaded, drag it to the photo you would like to replace. Hover on it for 2-3 seconds. Once the replacement is completed, double-click on the photo to adjust the crop area.

Step 5: Download the file

Go to the share button on the top and click download. Select PNG and hit download.

Step 6: Upload to your social media account

Upload your photo to your social media. For updates on Facebook see it [here](#). For updates on Instagram see it [here](#).
