

Fiscal Year 2026 Nonprofit Security Grant Program Key Changes

The Nonprofit Security Grant Program (NSGP) provides funding support for facility hardening and other physical security enhancements and activities to nonprofit organizations that are at high risk of terrorist or other extremist attacks. This document outlines key changes for the Fiscal Year (FY) 2026 NSGP.

New Subrecipients

In FY 2026, nonprofit organizations that have not previously received NSGP funding will have **15 points** added to their project score. No additional bonus points will be awarded.

Investment Justification Funding Request Limit Increase

Each Investment Justification can now request up to \$200,000 per location/physical site/address. A nonprofit organization may submit application packages for up to three sites per NSGP-Urban Area (NSGP-UA) and NSGP-State (NSGP-S) funding stream, for a maximum of \$600,000 per subapplicant organization per state or territory. The amount of funding requested (maximum of \$600,000) and number of submissions per nonprofit organization (maximum of six applications, three under NSGP-S and three under NSGP-UA) may not exceed these limits per state or territory. In states with no Urban Area, no more than three applications per nonprofit organization are allowable.

Allocative Model

The FY 2026 NSGP (NSGP-S and NSGP-UA) funding will be issued as risk-based allocations to each state and territory. Subawards will continue to be governed by the standard competitive process.
