Market performance overview

- Global equity markets finished in positive territory for the month of March, despite turbulence in the banking sectors of the U.S. and Europe.
- Emerging markets outperformed developed markets, with the U.K. lagging other developed nations like Japan and the U.S.
 - Regionally, Europe ex-U.K. outperformed Latin America and Pacific ex-Japan.
- U.S. equities (as represented by the S&P 500 Index) rose 3.67% during the month.
 - Within U.S. equities, telecommunication services and information technology companies outperformed other sectors. Meanwhile, financials and energy companies underperformed other sectors.
- Large-cap stocks outperformed small-cap stocks. Growth stocks outperformed value stocks.
- U.S. Treasury rates fell across much of the yield curve, with 1-month rates being the sole exception. Bond prices rise as yields fall.
- The Fed raised the federal-funds rate to a range of 4.75%-5.00% on March 22. In a statement, the FOMC commented that it “anticipates that some additional policy firming may be appropriate in order to attain a stance of monetary policy that is sufficiently restrictive to return inflation to 2 percent over time.” The statement omitted the Fed’s longstanding reference to “ongoing increases in the (federal-funds) target range,” suggesting that the central bank may be nearing the end of its rate-hiking cycle.

U.S. Large Cap = Russell 1000, U.S. Small Cap = Russell 2000, International Equity x U.S. = MSCI ACWI ex-US (net), Emerging Markets Equity = MSCI EFM (Emerging+Frontier Markets) (net), U.S. Investment Grade Bonds = Bloomberg Barclays U.S. Aggregate, High Yield = ICE BofA US HY Constrained, Emerging Markets Debt = 50% JPM EMBI GD / 50% GBI-EM GD Index, Long Duration = Bloomberg Barclays Long US Govt/Credit, Inflation Linked = Bloomberg Barclays 1-5 Year TIPS, Commodities = Bloomberg Commodity. General Disclosures

For those SEI products which employ a multi-manager structure, SEI Investments Management Corporation is responsible for overseeing the sub-advisors, and recommending their hiring, termination and replacement.

All performance numbers greater than one year are annualized. All figures in this report are based on trade date and accrual accounting methods. As a result, these figures may not match your custody statement.

Certain fund benchmarks used to measure performance may be changed by SEI to more appropriately reflect a fund's investment style.

The Total Portfolio Index reported is customized for your account. It is based on the benchmarks for each asset class in which you are invested, weighted based on your target allocations. The Total Portfolio Index is adjusted to reflect any changes in your target allocations but not changes in your actual allocations which may occur due to changes in the market value of your investments.

If there has been a change in the financial condition of your organization, please notify your SEI Client Portfolio Manager immediately.

This presentation is provided by SEI Investments Management Corporation (SIMC), a registered investment adviser and wholly owned subsidiary of SEI Investments Company. The material included herein is based on the views of SIMC. Statements that are not factual in nature, including opinions, projections and estimates, assume certain economic conditions and industry developments and constitute only current opinions that are subject to change without notice. Nothing herein is intended to be a forecast of future events, or a guarantee of future results. This presentation should not be relied upon by the reader as research or investment advice (unless SIMC has otherwise separately entered into a written agreement for the provision of investment advice).

There are risks involved with investing including loss of principal. There is no assurance that the objectives of any strategy or fund will be achieved or will be successful. No investment strategy, including diversification, can protect against market risk or loss. Current and future portfolio holdings are subject to risk. Past performance does not guarantee future results.

Index returns are for illustrative purposes only and do not represent actual fund performance. Index performance returns do not reflect any management fees, transaction costs, or expenses, which would reduce returns. Indexes are unmanaged and one cannot invest directly in an index.

In the event prior performance was provided to SEI and included in this report, neither SEI nor its affiliates assumes any responsibility for the accuracy or completeness of such prior performance and such information has not been independently verified by SEI.

Disclosures

Jewish Federation of Jacksonville - Income Growth

For period ending: 3/31/2023

General Disclosures - continued

The Total Portfolio Return and underlying holdings performance numbers are calculated using Gross Fund Performance, using a true time weighted performance method (prior to 6/30/2012 the Modified Dietz method of calculation was used). Gross Fund Performance reflects the effective performance of the underlying mutual funds that are selected or recommended by SIMC to implement an institutional client's investment strategy. Gross Fund Performance does not reflect the impact of fund level management fees, fund administration or shareholder servicing fees, all of which, if applicable are used to offset the account level investment management fees the client pays to SIMC. Gross Fund Performance does reflect certain operational expenses charged by the funds and the reinvestment of dividends and other earnings. The inclusion of the fund level expenses that the client incurs but that are offset against the client's account level investment management fees would reduce the gross fund performance of the mutual funds. Total Portfolio Return-Net of Fund Expenses performance numbers reflect the impact of fund level management fees, sub-advisor fees (if applicable) and other administrative and operating expenses charged by the funds. Such performance numbers do not reflect the impact of account level management (OCIO) fees charged to the client pursuant to the terms of the investment management agreement with SIMC, which will reduce performance. Net portfolio performance information is available upon request to your client service representative. Alternative, Property and Private Assets performance may be reported on a monthly or quarterly lag.

Any presentation of gross mutual fund performance of underlying mutual fund investments or gross account level performance is only intended for one-on-one presentations with clients and may not be duplicated in any form by any means or redistributed without SIMC's prior written consent.

Through June 30, 2012, annual performance is calculated based on monthly return streams, geometrically linked. From June 30, 2012 onward, annual performance is based upon daily return streams, geometrically linked as of the specified month end.

Performance results do not reflect the effect of certain account level advisory fees. The inclusion of such fees would reduce account level performance, particularly when compounded over a period of years. The following hypothetical illustration shows the compound effect fees have on investment return: For an account charged 1% with a stated annual return of 10%, the net total return before taxes would be reduced from 10% to 9%. A ten year investment of \$100,000 at 10% would grow to \$259,374, and at 9%, to \$236,736 before taxes. For a complete description of all fees and expenses, please refer to SIMC's Form ADV Part 2A, the investment management agreement between SIMC and each client, and quarterly client invoices.

SEI performance may differ from that of your manager, custodian or consultant due to differences of pricing, valuation and performance methodology.
